NUMB. 570

THURSDAY, APRIL 21. 1737.

910 568-

Yesterday arrived a Mail from France, but brought nothing material.

NE of the Foreign Papers, by the last Dutch Mail, says from the Hague, That an Accommodation is lately concluded betwixt the Courts of Berlin and London, by the Ministry of M. Ginkle, and the Mediation of their High Mightinesses, to whom the King of Prussia had some Time ago apply'd for that Purpose. The Conditions are not publick, more than that there is to be a General Oblivion of what has pass'd on both Sides; that M. de Boreke is to be receiv'd at the Court of Great Britain, in Quality of the Prussian Minister, and that the King of Great Britain is to send a Minister of Distinction to Berlin. This News, it seems, is the more welcome at the Hague, because some Weeks ago they were apprehensive of hearing the Reverse. They say they expect Mr. Horace Walpole there very soon, after he has been in France, with some Instructions about Juliers and Berg.

An Advice Ship arrived at Cadiz, from Carthage in America, brings News, That the Register Ship which sail'd half a Year ago for Cuba, had been seiz'd by Order of the Governor of Carthage, on a Suspicion of having Contraband Goods on board; and that upon a strict Search, Brocades and other Silk Stuffs, to the Value of 400000 Pieces of Eight, were found among the Books of Devotion which the Jesuits were sending into that Country; and that the Whole was confiscated.

The Letters from Naples say, That the Bonds of private Persons on the Farm of Snuff, are to be reduc'd from Six to Four per Cent. with Leave to such as are not satisfy'd with that Reduction, to draw in the Money they have advanc'd; his Majesty intending to lay out good Part of the Sums he has receiv'd from the Court of Spain, in Order to engross all the Revenues of that Farm to himself.

Dundalk, April 10. The Ship that was stranded here a few Days ago, is called the Fortune, Simon Woodborn Master, bound from London to Lancaster, with Flax, Hemp, Groceries, Drugs, Oilman's Wares, Household Furniture, &c. valued at 5000 l. but is now safe in this Port, and her Cargo in Stores having receiv'd little Damage, except the Groceries, a little of the Flax and all the Hemp; which, it's hoped, may be recovered by the Washing it had since, and the Drying it is now receiving in the Bleach-yard. Scarce any Ship or Cargo of such Variety of Goods ever met with the like Fortune; which was chiefly owing to the Goodness of the Rt. Hon. the Lady Viscountess Limerick, who ordered a Guard of 50 Men, besides her Footmen, Coachman, and Grooms, to attend the Ship and Shore Night and Day, and her Coach Horses and Mares, Waggon Horses, and Carr Horses, were daily employ'd in the Waggon, Friction Carts, and Common Carrs, in securing the Goods. Like-wise Thomas Fortescue of Reynoldstown, Esq; ordered a Guard, and sent his Footmen and Horses for the said Service.

On the 4th, between three and four Leagues to the Westward of the Harbour of Youghall, was lost the Hector of London, of about 300 Tons, Jonas Marnett, Master, from Rotterdam, bound to Dublin, with Wainscot Logs, Steel, Iron, Bark, 24 Casks of Rhenish Wine, and some Paper; the Master and eight Men drowned, and three saved, but very much hurt and bruised, but cannot learn whether any of the Goods is saved.

Dublin, April 12. Last Week two Chimney Sweepers came down the Chimney of Mr. Quill's House in Armond Market, after the Family were in Bed, but Mr. Quill hearing a Noise, got up, and took down the Gun, which he fired at one of the Fellows, who was making the best of his Way out of a Back-door, and shot through a great Black Bag the Fellow had put his Head in an antick Manner; which so surpris'd him, that he fell down as if wounded, which gave Mr. Quill an Opportunity of seizing him. The other made his Escape up the Chimney.

We hear that Lieutenant Colonel Wandsbrogh, of General Gore's Dragoons in England, is made Go-

vernor of the Royal Hospital near Dublin; and that Major William Wright, of Brigadier Orway's Regiment of Foot, will succeed him as Lieutenant Colonel.

Edinburgh, April 14. This Day comes on the Election of a Peer at the Borough Room, in place of the Earl of Orkney, deceased, when the Right Hon. the Earl of Bute will be chosen without Opposition. On this Occasion the Regiment of Welsh Fusiliers march'd Yesterday from the Canongate for Dalkeith.

We hear the new-intended Road betwixt this City and Glasgow, will be near 12 Miles shorter than any of the present ones are, and may be executed for about 6000 l.

Last Sunday se'nnight, the Sacrament was celebrated at Stirling by the Reverend Mr. Ebenezer Erskine, and the other Members of the associate Presbytery: Upon this Occasion there was the most numerous Congregation that has been known in the Memory of Man, it being computed that there were present between eleven and twelve thousand Persons, some hundreds of whom were from England and Ireland, and the rest from all the Corners of this Part of the Kingdom.

'Tis almost incredible to believe what considerable Seizures are daily made in many Places of the Country, notwithstanding of the severe Laws against the Smuggling Trade: They write from Inverness of the 6th current, that Alexander Brodie, Comptroller of the Customs there, seized out of the Providence of Dundee, Alexander Wedderburn, Master, from Hamburg, 1545 Gallons of Spirits, besides several Parcels of fine China, and other Goods: And from Irvine, by Letters of the 5th Current, we hear 462 Gallons of Rum and Brandy were seized there.

Yesterday the Presbytery of Edinburgh appointed the Admission of the Rev. Mr. Alexander Webster as one of the Ministers of this City, to be upon the 1st Thursday of June next; at the same time they resolv'd, that the Rev. Mr. Gilbert Hamilton be ordained and admitted Minister of Cramond this Day Fortnight.

Gloucester, April 16. We hear from Bath, that on Tuesday last a young Man, Son to a Farmer in Wiltshire, had his Leg cut off above his Knee, by a Surgeon of that City; the Occasion of which was very surprising: About nine Years ago, a little Swelling arose somewhat above the Small of his Leg, and increas'd by Degrees a little above his Knee, till it came to a hard Substance, but without much Pain till of late Years, when it grew to such a monstrous Size, that the Patient could bear it no longer. It was measur'd, and in Circumference was 3 Foot 10 Inches, and when cut off, weigh'd upwards of 60 lb.

And from Whitchurch in Herefordshire, that on Wednesday Evening last, Samuel Thomas, of Langarran near that Place, Labourer, being out at Work, his Wife was digging in the Garden, and left two Children in the House (one near four, and the other about a Year and half old) the eldest of which took the youngest into a Pigsty adjoining thereto, wherein was some Straw, and cover'd it therewith, and then set the Straw on Fire (in Imitation, as 'tis thought, of the Father, who had 2 or 3 Days before, killed a Pig, and singed it.) The Wind being very high, the Child was almost dead before the Mother could get it out, however it liv'd but 8 Hours after: The Mother was also miserably burnt, and the House, with the greatest Part of the Poor Man's Goods, entirely consum'd.

Ipswich, April 15. Last Monday in the Afternoon, the Corpse of Arthur Barnardiston, Esq; was carried through this Town and interred at Brightwell Chapel, in a decent and very private Manner, according to his own Directions; when his Tenants and Servants express'd a grateful Sense of the many Favours they had all received from him, much doubting whether they shall at any time meet with so much good Nature and Humanity, strict Justice and Generosity in any one Man, as they had, by Experience, found to be at all Times inseparable from him.

The Noble Dust within this Urn that sleeps,
Each Reader's Eye must envy ere it weeps;
And viewing, on the Stone, the Warrior's Name,
Forget his Death, to wonder at his Fame.
